in a sensitive and compelling account of the lives of those at the very bottom of indian society oliver mendelsohn and marika vicziany explore the construction of the untouchables as a social and political category the historical background which led to such a definition and their position in india today the authors argue that despite efforts to ameliorate their condition on the part of the state a considerable edifice of discrimination persists on the basis of a tradition of ritual subordination even now therefore it still makes sense to categorise these people as untouchables the book promises to make a major contribution to the social and economic debates on poverty while its wide ranging perspectives will ensure an interdisciplinary readership from historians of south asia to students of politics economics religion and sociology
